

Hackathon: 3

Day 5

(20th January 2025)

TESTING, ERROR
HANDLING, AND
BACKEND INTEGRATION
REFINEMENT

[Day_5_Testing_Error_Handling_and_Backend_Integration_Refinement.pdf](#)

Everything is working well, and all components are functioning smoothly. The performance is optimized, ensuring quick load times and seamless navigation. User interactions are responsive and intuitive, providing a smooth experience across different devices and browsers. Any potential issues have been addressed, and the system operates securely with no errors. The overall design is clean, and everything flows as expected, making the experience pleasant and efficient for users.
